

GRAY WATER PITS – APPROVAL FORM

LOOK BEFORE YOU DIG!!

The pit must be located and **approved by two trustees (Water Trustee and Grounds Trustee)**. The pit must be located 5' from electric and water lines. The pit must be 2' wide x 4'-6' long. A 4" PVC sewer pipe with a tee in the middle will be installed with a riser to the surface of the ground. The pit will require 12" of 57 washed gravel under the pipe, the hole will be filled to 12" below grade. The remainder of the pit will be filled with a layer of soil. It may also be topped with gravel over the soil, if desired.

A hose adapter will hook up to a 3/4" garden hose above ground. This will carry the gray water into your pit. If gray water seeps to the surface, please contact the water and/or grounds trustee.

Installation may be done by LLMA volunteers at a fee of \$250 per pit (complete). Please make checks payable to LLMA. You may also have this pit installed on your own, but it must be installed by these **park approved guidelines**.

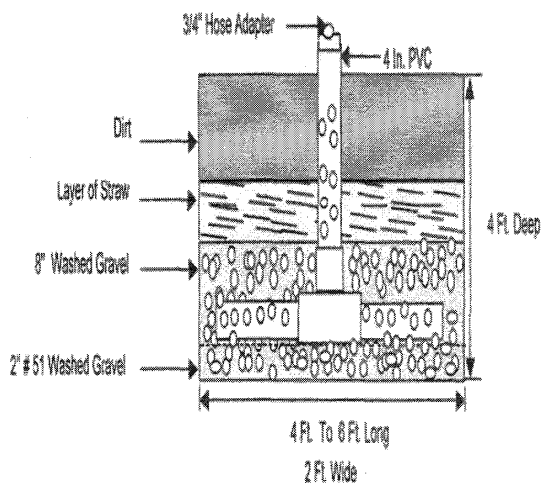

Water Trustee: _____ Date: _____

Grounds Trustee: _____ Date: _____

Excess dirt removed: Yes: _____ No: _____ (please initial)

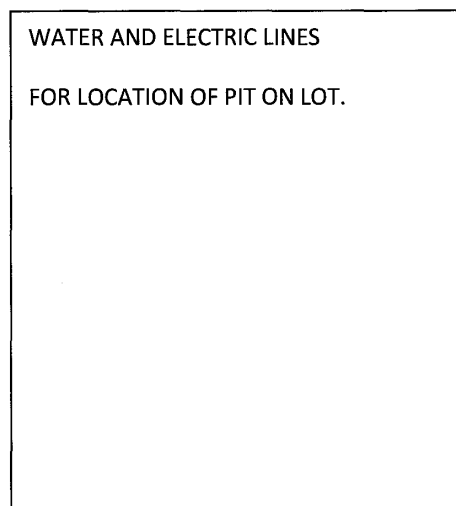

Anyone caught dumping sewage into this pit will be fined \$250.00.
